

SERVICE KIT PER SEPARATORI ACQUA/OLIO SCARICATORI DI CONDENZA

FILTER CENTER®

La filtrazione a 360°

www.filtercenter.com

Kit di manutenzione

SEPURA™

tecnologie superiori

per altri separatori olio/acqua

Migliora la performance del tuo vecchio separatore olio/acqua sostituendo il kit di manutenzione originale dotato di sacco a carbone con i materiali SEPURA>s SILEXA™.

SILEXA™ è stato disegnato per offrire un'eccezionale soluzione tecnologica per il trattamento di un'ampia gamma di condensati. Il punto chiave della sua performance è la struttura meccanica che si mantiene integra una volta immersa, lasciando aperte le vie interne per evitare ostruzioni. Nel contempo fornisce un'incredibilmente ampia area di superficie per massimizzare l'assorbimento dell'olio e la vita utile del filtro.

I vantaggi del Modulo SILEXA...

Una vita utile più lunga

SILEXA™ assorbe più olio del carbone ed è molto meno soggetto a ostruzioni, riducendo così il verificarsi di fuoriuscite.

Qualità di depurazione dello scarico

Con una maggiore predisposizione per l'olio e una più ampia area di superficie utilizzabile rispetto al carbone, in generale, un minor quantitativo d'olio sfugge a SILEXA™.

Più facile da maneggiare

SILEXA™ è più leggero del carbone; inoltre, produce meno polvere e non necessita di preammollo. Pertanto, è facile da installare, non necessita di speciali pretrattamenti e aiuta a mantenere tutto più pulito.

Sicuro per l'ambiente

SILEXA™ è prodotto utilizzando materiali riciclati e può essere a sua volta riciclato ed è quindi una soluzione sostenibile a un problema ambientale.

È importante notare che, in molti dei separatori olio/acqua, la prestazione è principalmente regolata dall'efficacia della rete o della barriera di filtraggio, che costituisce parte integrante della fase di separazione gravitazionale. Se questa parte del sistema non funziona correttamente, il filtro SILEXA™ può compensare solamente in modo limitato. In questo caso, è bene considerare di passare a un separatore SEPURA, il quale non utilizza un sistema di separazione gravitazionale.

Per i condensati normali, i separatori SEPURA ST sono eccellenti, mentre per i condensati particolarmente complessi o persino emulsionati, SEPURA D offre una soluzione pratica ed economica. Contatta il tuo rivenditore SEPURA per dettagli.

Come il carbone, SILEXA™ è ottimizzato per i tipi di condensato che si formano in impianti che impiegano lubrificanti a base di idrocarburi, la sua efficacia è similmente ridotta su materiali PAG, per cui la capacità deve essere ridotta del 50%.

SILEXA™

I kit di manutenzione di terzi per separatori olio/acqua sono disponibili per:

BEKO
Boge
Compair
Denco
Domnick Hunter
Donaldson
Gardner Denver
Hankinson
Hiross
Ingersoll Rand
Jorc
Kaeser
Ultrafilter
Wortmann
Zander

Vedere di seguito per i kit di manutenzione per i separatori olio/acqua di terzi

Abbiamo un separatore per ogni esigenza

SEPURA offre una gamma completa di soluzioni per la filtrazione del condensato, che include separatori con capacità bassa, media ed elevata. Dal modello SEP 60 ST, compatto, rivoluzionario e monouso al nostro modello per le applicazioni pesanti, SEP 7000 ST, abbiamo un separatore che risponde al meglio alla maggioranza delle applicazioni industriali.

- Bassa capacità – fino a 60 cfm (1,7 m³/min)
- Media capacità – 120 cfm a 2500 cfm (3,4 – 70,8 m³/min)
- Elevata capacità – 3500 cfm a 7000 cfm (100 – 200 m³/min)

Fa bene all'ambiente - fa bene a te

Siamo orgogliosi di essere leader di mercato nella nostra area di competenza, fornendo le soluzioni più innovative, facilmente reperibili, sostenibili e rinnovabili ai nostri clienti. L'utilizzo dei prodotti di filtraggio SEPURA dà la certezza che lo scarico del condensato trattato, avvenga in conformità alle correnti disposizioni di legge, nel rispetto delle proprie responsabilità verso l'ambiente - condensato pulito, coscienza pulita.

LISTINO SCARICATORI CONDENSA - CONDESATE DRAINS PRICE LIST (012018)

CODE	TYPE	CARATTERISTICHE TECNICHE – TECHNICAL SPECS	€/cd + iva
TD1		IN R 3/8 m - OUT d. 10 mm (porta gomma – hose barb) VOLTAGE 230/110 V ac (50-60 hz) - IP65 Filtro Integrato – Strainer integrated Orifizio – Orifice 2 mm Max 16 bar	109,00
AD950T		IN R 3/8-1/2 m - OUT d. 10 mm (porta gomma – hose barb) VOLTAGE 230 V ac (50-60 hz) - IP65 Filtro Integrato – Strainer integrated Orifizio – Orifice 2 mm Max 16 bar	198,00
CS72014		IN R 1/4 f - OUT R 1/4 f VOLTAGE 230 V ac (50-60 hz) - IP65 Orifizio – Orifice 2.0 mm Max 16 bar	69,00
CS72038		IN R 3/8 f - OUT R 3/8 f VOLTAGE 230 V ac (50-60 hz) - IP65 Orifizio – Orifice 4.5 mm Max 16 bar	72,00
CS728A		IN R 1/2 f - OUT R 1/2 f VOLTAGE 230 V ac (50-60 hz) - IP65 Orifizio – Orifice 3.5 mm Max 16 bar	62,50
CS72012		IN R 1/2 f - OUT R 1/2 f VOLTAGE 230 V ac (50-60 hz) - IP65 - LED on/off - (DIGITALE) Orifizio – Orifice 3.5 mm CABLAGGIO 1.5 m – WIRING 1,5 m Max 16 bar	86,00
CS7208012		IN R 1/2 f - OUT R 1/2 f VOLTAGE 230 V ac (50-60 hz) - IP65 Orifizio – Orifice 2 mm Max 80 bar	79,00
SB11681515		IN R 1/2 f - OUT R 1/2 f VOLTAGE 230 V ac (50-60 hz) - IP65 Orifizio – Orifice 15 mm Max 16 bar	80,00
